

FEBRUARY 10-12  
DAVENPORT HOTEL

# 2026 Annual Meeting

SPOKANE, WA

THE AMC EOS  
REAL  
WORLD

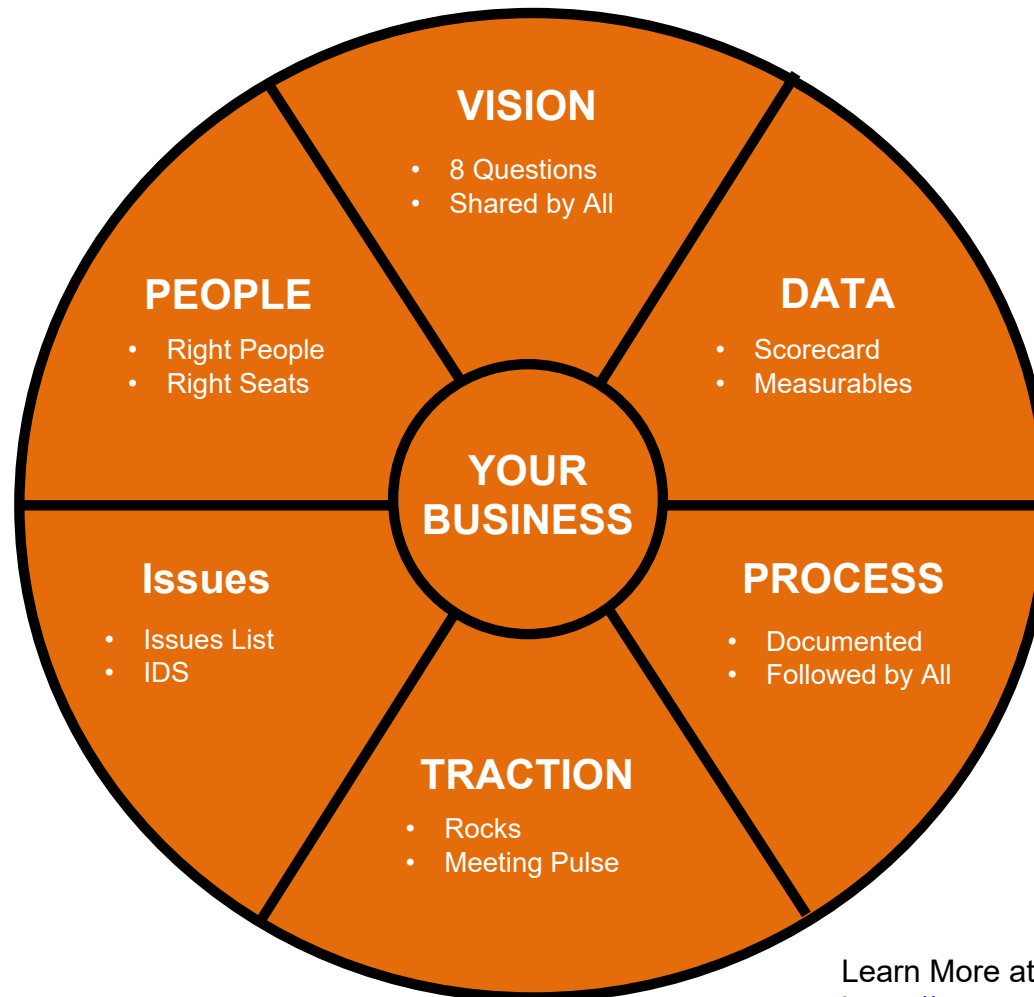

# Welcome!

## Learning Objectives:

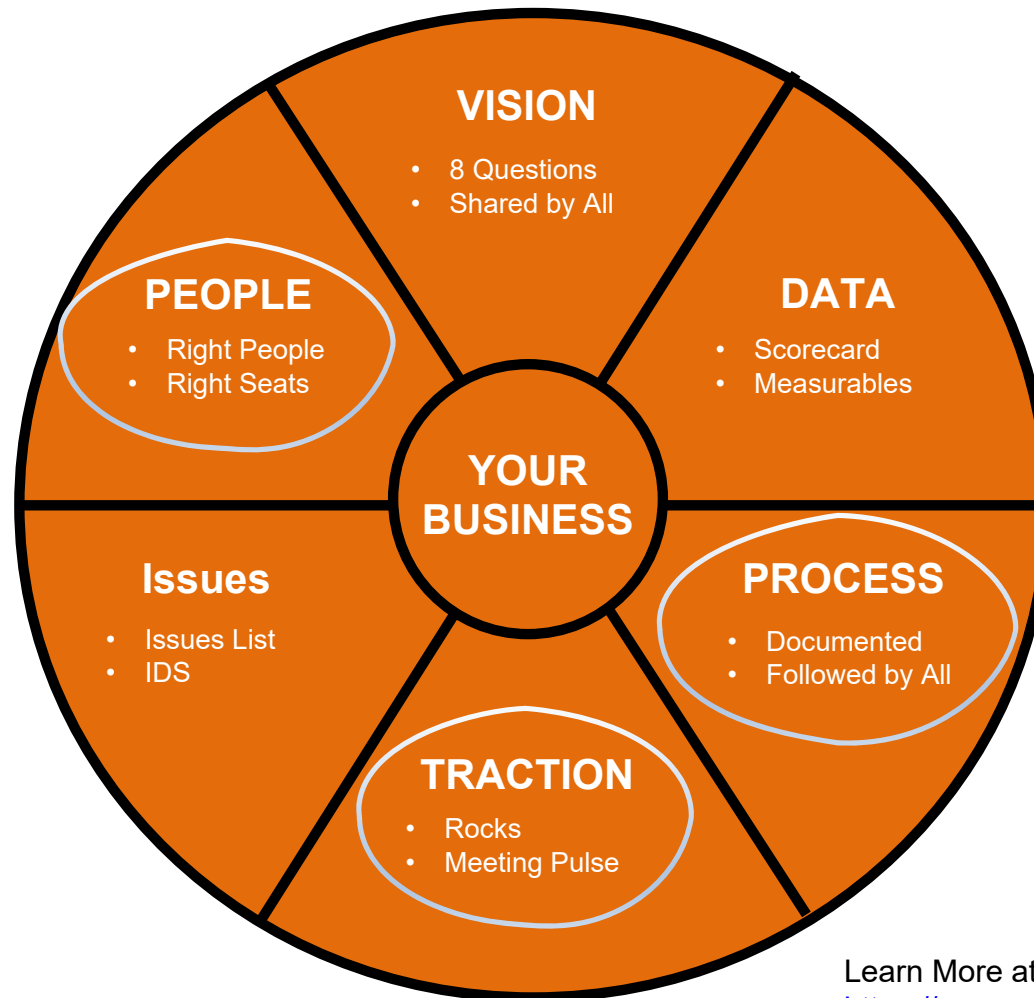

- Recognize the opportunities, and challenges, of incorporating flexible, people-first approaches to the EOS structure.
- Reflect on the key cultural or organizational priorities that make your company great, and how/why they need to remain through any efforts to maximize efficiency.
- Evaluate the cost/benefit of thoughtful alterations to the standard EOS tools or structure for your AMC.

# People

# Process

A close-up photograph of a tire tread pattern on a light-colored, possibly sandy or dusty, surface. The tread consists of several parallel longitudinal grooves, with smaller, more complex patterns between them. The lighting is bright, creating soft shadows that emphasize the texture of the rubber and the surface it's on.

# Traction

# Striking the Balance

# Thank You!
