01: About AMC Institute

The AMC story is one of stability and growth. An increase of 21% over the past four years makes us a \$1.9B industry, with the number of associations choosing the AMC model up 18%. Serving over 3,000 nonprofits in 2024, AMC Institute's more than 180 member firms worldwide have ensured that these organizations continue to provide meaningful value to 3.3 million members despite unprecedented disruption and transition.

Our community of executive decision-makers actively manage the oversight and selection of vendors for technology, meetings, exhibitions, finance, marketing, communications, research, education, membership and governance. In fact, AMCI member firms produced close to 7,000 meetings and events and 500,000 hotels room nights during the pandemic alone.
